UNITED STATES DEPARTMENT OF AGRICULTURE  
Foreign Agricultural Service

FSV-120

IMPORTS OF FRUITS AND VEGETABLES UNDER QUARANTINE  
BY COUNTRIES AND PORTS OF ENTRY  
JULY-JUNE  
1937-38

Compiled from the official records  
of the  
Bureau of Entomology and Plant Quarantine

Washington, D. C.  
March, 1939

The tables in this report were compiled from notices of arrival of fruits and vegetables filed at the port of first arrival, during the year ended June 30, 1938, under provisions of Quarantines Nos. 56 and 28 and the Potato Regulations Administered by the Bureau of Entomology and Plant Quarantine governing the importation of potatoes into the United States. Imports of fresh fruits and vegetables from all foreign countries except Canada are included in the tabulations.

These tables have been published in the form given here beginning with the fiscal year ended June 30, 1925. The first four years they were a part of the annual reports of the Federal Horticultural Board; from 1929 to 1932 they were published in the annual reports of the Plant Quarantine and Control Administration; in the next two years they appeared in the annual reports of the Bureau of Plant Quarantine; and in 1935 and 1936 they were printed in the annual report of the Bureau of Entomology and Plant Quarantine.

Since these tables include the imports of all fresh fruits and vegetables, except those from Canada, they contain import information on many items which is not available elsewhere.

FRUITS AND VEGETABLES: Imports into the United States from  
foreign countries under the provisions of the quarantines  
and restrictive orders administered by the Bureau of  
Entomology and Plant Quarantine, fiscal year 1938  
(By country of origin)

Office of Foreign Agricultural Relations

FSV-121

IMPORTS OF FRUITS AND VEGETABLES UNDER QUARANTINE  
BY COUNTRIES AND PORTS OF ENTRY  
JULY-JUNE  
1938-39

Compiled from the official records  
of the  
Bureau of Entomology and Plant Quarantine

Washington, D. C.  
January 1940

The tables in this report were compiled from notices of arrival of fruits and vegetables filed at the port of first arrival, during the year ended June 30, 1939, under provisions of Quarantines Nos. 56 and 28 and the Potato Regulations Administered by the Bureau of Entomology and Plant Quarantine governing the importation of potatoes into the United States. Imports of fresh fruits and vegetables from all foreign countries except Canada are included in the tabulations.

These tables have been published in the form given here beginning with the fiscal year ended June 30, 1925. The first four years they were a part of the annual reports of the Federal Horticultural Board; from 1929 to 1932 they were published in the annual reports of the Plant Quarantine and Control Administration; in the next two years they appeared in the annual reports of the Bureau of Plant Quarantine; and in 1935 and 1936 they were printed in the annual report of the Bureau of Entomology and Plant Quarantine.

Since these tables include the imports of all fresh fruit and vegetables, except those from Canada, they contain import information on many items which is not available elsewhere.

FRUITS AND VEGETABLES: Imports into the United States from foreign countries under the provisions of the quarantines and restrictive orders administered by the Bureau of Entomology and Plant Quarantine, July to June 1938-39 a/
